To Whom It May Concern

I write in regards to Johan Sydseter's reference for working at GigaCom AS. GigaCom specializes in fibre optic components and solutions for the data- and telecommunication industry in Europe.

Johan Sydseter has been working for GigaCom AS from May 2008 until August 2009 as a web designer and photographer. He has been responsible for redesigning our website and shooting photographs for our product catalogue. He has also done print- and graphical work for the company during the same period. It is with pleasure that I write this reference as Johan has done his work to our greatest satisfaction and we look forward towards hearing from him again in the future should we need his competence again.
